

GIRAFFE

Designed by Yicheng Li

GIRAFFE is mostly made of wood, it is safe and environmentally friendly. GIRAFFE is also a cute friend in the children's room. The long neck of the giraffe is a ruler, it can be used for measuring the kid's height.

Yicheng Li is an industrial designer and Design for All specialist. He has years of experience in Product Design, Environmental Design and Graphic Design. Now he lives in Sweden and works as an independent designer.

This design is inspired by a giraffe. I like to design for kids based on their needs. As a group with special needs, they deserve more than just a lamp. A giraffe is a trusted friend. It measures the kid's height and also grows up together with them.

GIRAFFE
