

LOOK

This lamp is designed by Niklas Ytterström and is a fairly new addition to our design lamps. By combining an airy design with the energy saving capabilities of LED lighting this lamp is a welcome addition to any home.

The reflectors can be turned 360 degrees around each arm to reshape the whole appearance of the lamp. Look comes in four colours, silver, black, copper and wood.

"The concept around this lamp sprung from the inspiration of the changing of the four seasons. It reflects the feeling of each state of the year as it can be made to look like an autumn wind breezing through the room, crystallizing during winter and blossoming out from spring to summer."

"The materials and colors combined with a sensible light source is true Scandinavian design."
